

SECOND REGULAR SESSION

# SENATE BILL NO. 1374

92ND GENERAL ASSEMBLY

---

INTRODUCED BY SENATOR GIBBONS.

Read 1st time March 1, 2004, and ordered printed.

TERRY L. SPIELER, Secretary.

4697S.01I

---

## AN ACT

To repeal sections 32.200, 137.115, 143.091, 143.121, and 143.431, RSMo, and to enact in lieu thereof nine new sections relating to taxation, with an effective date.

---

*Be it enacted by the General Assembly of the State of Missouri, as follows:*

Section A. Section 32.200, 137.115, 143.091, 143.121, and 143.431, RSMo, are repealed and nine new sections enacted in lieu thereof, to be known as sections 32.200, 137.115, 143.091, 143.121, 143.431, 1, 2, 3, and 4, to read as follows:

32.200. The "Multistate Tax Compact" is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:

### MULTISTATE TAX COMPACT

#### Article I

The purposes of this compact are to:

1. Facilitate proper determination of state and local tax liability of multistate taxpayers, including the equitable apportionment of tax bases and settlement of apportionment disputes.
2. Promote uniformity or compatibility in significant components of tax systems.
3. Facilitate taxpayer convenience and compliance in the filing of tax returns and in other phases of tax administration.
4. Avoid duplicative taxation.

#### Article II

As used in this compact:

1. "State" means a state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, or any territory or possession of the United States.
2. "Subdivision" means any governmental unit or special district of a state.
3. "Taxpayer" means any corporation, partnership, firm, association, governmental

**EXPLANATION--Matter enclosed in bold-faced brackets [thus] in this bill is not enacted and is intended to be omitted in the law.**

unit or agency or person acting as a business entity in more than one state.

4. "Income tax" means a tax imposed on or measured by net income including any tax imposed on or measured by an amount arrived at by deducting expenses from gross income, one or more forms of which expenses are not specifically and directly related to particular transactions.

5. "Capital stock tax" means a tax measured in any way by the capital of a corporation considered in its entirety.

6. "Gross receipts tax" means a tax, other than a sales tax, which is imposed on or measured by the gross volume of business, in terms of gross receipts or in other terms, and in the determination of which no deduction is allowed which would constitute the tax an income tax.

7. "Sales tax" means a tax imposed with respect to the transfer for a consideration of ownership, possession or custody of tangible personal property or the rendering of services measured by the price of the tangible personal property transferred or services rendered and which is required by state or local law to be separately stated from the sales price by the seller, or which is customarily separately stated from the sales price, but does not include a tax imposed exclusively on the sale of a specifically identified commodity or article or class of commodities or articles.

8. "Use tax" means a nonrecurring tax, other than a sales tax, which

(a) is imposed on or with respect to the exercise or enjoyment of any right or power over tangible personal property incident to the ownership, possession or custody of that property or the leasing of that property from another including any consumption, keeping, retention, or other use of tangible personal property; and

(b) is complementary to a sales tax.

9. "Tax" means an income tax, capital stock tax, gross receipts tax, sales tax, use tax, and any other tax which has a multistate impact, except that the provisions of articles III, IV and V of this compact shall apply only to the taxes specifically designated therein and the provisions of article IX of this compact shall apply only in respect to determinations pursuant to article IV.

### Article III

1. Any taxpayer subject to an income tax whose income is subject to apportionment and allocation for tax purposes pursuant to the laws of a party state or pursuant to the laws of subdivisions in two or more party states may elect to apportion and allocate his income in the manner provided by the laws of such state or by the laws of such states and subdivisions without reference to this compact, or may elect to apportion and allocate in accordance with article IV. This election for any tax year may be made in all party states or subdivisions thereof or in any one or more of the party states or subdivisions thereof without reference to the election made in the others. For the purposes of this paragraph, taxes imposed by

subdivisions shall be considered separately from state taxes and the apportionment and allocation also may be applied to the entire tax base. In no instance wherein article IV is employed for all subdivisions of a state may the sum of all apportionments and allocations to subdivisions within a state be greater than the apportionment and allocation that would be assignable to that state if the apportionment or allocation were being made with respect to a state income tax.

2. Each party state or any subdivision thereof which imposes an income tax shall provide by law that any taxpayer required to file a return, whose only activities within the taxing jurisdiction consist of sales and do not include owning or renting real estate or tangible personal property, and whose dollar volume of gross sales made during the tax year within the state or subdivision, as the case may be, is not in excess of \$100,000 may elect to report and pay any tax due on the basis of a percentage of such volume, and shall adopt rates which shall produce a tax which reasonably approximates the tax otherwise due. The multistate tax commission, not more than once in five years, may adjust the \$100,000 figure in order to reflect such changes as may occur in the real value of the dollar, and such adjusted figure, upon adoption by the commission, shall replace the \$100,000 figure specifically provided herein. Each party state and subdivision thereof may make the same election available to taxpayers additional to those specified in this paragraph.

3. Nothing in this article relates to the reporting or payment of any tax other than an income tax.

#### Article IV

1. As used in this article, unless the context otherwise requires:

(1) "Business income" means income arising from transactions and activity in the regular course of the taxpayer's trade or business and includes income from tangible and intangible property if the acquisition, management, and disposition of the property constitute integral parts of the taxpayer's regular trade or business operations.

(2) "Commercial domicile" means the principal place from which the trade or business of the taxpayer is directed or managed.

(3) "Compensation" means wages, salaries, commissions and any other form of remuneration paid to employees for personal services.

(4) "Financial organization" means any bank, trust company, savings bank, industrial bank, land bank, safe deposit company, private banker, savings and loan association, credit union, cooperative bank, small loan company, sales finance company, investment company, or any type of insurance company.

(5) "Nonbusiness income" means all income other than business income.

(6) "Public utility" means any business entity

(a) which owns or operates any plant, equipment, property, franchise, or license for the transmission of communications, transportation of goods or persons, except by pipeline,

or the production, transmission, sale, delivery, or furnishing of electricity, water or steam; and

(b) whose rates of charges for goods or services have been established or approved by a federal, state or local government or governmental agency.

(7) "Sales" means all gross receipts of the taxpayer not allocated under paragraphs of this article.

(8) "State" means any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, any territory or possession of the United States, and any foreign country or political subdivision thereof.

(9) "This state" means the state in which the relevant tax return is filed or, in the case of application of this article, to the apportionment and allocation of income for local tax purposes, the subdivision or local taxing district in which the relevant tax return is filed.

2. Any taxpayer having income from business activity which is taxable both within and without this state, other than activity as a financial organization or public utility or the rendering of purely personal services by an individual, shall allocate and apportion his net income as provided in this article. If a taxpayer has income from business activity as a public utility but derives the greater percentage of his income from activities subject to this article, the taxpayer may elect to allocate and apportion his entire net income as provided in this article.

3. For purposes of allocation and apportionment of income under this article, a taxpayer is taxable in another state if

(1) in that state he is subject to a net income tax, a franchise tax measured by net income, a franchise tax for the privilege of doing business, or a corporate stock tax; or

(2) that state has jurisdiction to subject the taxpayer to a net income tax regardless of whether, in fact, the state does or does not.

4. Rents and royalties from real or tangible personal property, capital gains, interest, dividends or patent or copyright royalties, to the extent that they constitute nonbusiness income, shall be allocated as provided in paragraphs 5 through 8 of this article.

5. (1) Net rents and royalties from real property located in this state are allocable to this state.

(2) Net rents and royalties from tangible personal property are allocable to this state:

(a) if and to the extent that the property is utilized in this state; or

(b) in their entirety if the taxpayer's commercial domicile is in this state and the taxpayer is not organized under the laws of or taxable in the state in which the property is utilized.

(3) The extent of utilization of tangible personal property in a state is determined by multiplying the rents and royalties by a fraction, the numerator of which is the number of days of physical location of the property in the state during the rental or royalty period in

the taxable year and the denominator of which is the number of days of physical location of the property everywhere during all rental or royalty periods in the taxable year. If the physical location of the property during the rental or royalty period is unknown or unascertainable by the taxpayer, tangible personal property is utilized in the state in which the property was located at the time the rental or royalty payer obtained possession.

6. (1) Capital gains and losses from sales of real property located in this state are allocable to this state.

(2) Capital gains and losses from sales of tangible personal property are allocable to this state if

(a) the property had a situs in this state at the time of the sale; or

(b) the taxpayer's commercial domicile is in this state and the taxpayer is not taxable in the state in which the property had a situs.

(3) Capital gains and losses from sales of intangible personal property are allocable to this state if the taxpayer's commercial domicile is in this state.

7. Interest and dividends are allocable to this state if the taxpayer's commercial domicile is in this state.

8. (1) Patent and copyright royalties are allocable to this state:

(a) if and to the extent that the patent or copyright is utilized by the payer in this state; or

(b) if and to the extent that the patent copyright is utilized by the payer in a state in which the taxpayer is not taxable and the taxpayer's commercial domicile is in this state.

(2) A patent is utilized in a state to the extent that it is employed in production, fabrication, manufacturing, or other processing in the state or to the extent that a patented product is produced in the state. If the basis of receipts from patent royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the patent is utilized in the state in which the taxpayer's commercial domicile is located.

(3) A copyright is utilized in a state to the extent that printing or other publication originates in the state. If the basis of receipts from copyright royalties does not permit allocation to states or if the accounting procedures do not reflect states of utilization, the copyright is utilized in the state in which the taxpayer's commercial domicile is located.

9. All business income shall be apportioned to this state by multiplying the income by a [fraction, the numerator of which is] **percentage which shall be the sum of thirty percent of the property factor plus thirty percent of the payroll factor plus forty percent of the sales factor**[, and the denominator of which is three].

10. The property factor is a fraction, the numerator of which is the average value of the taxpayer's real and tangible personal property owned or rented and used in this state during the tax period and the denominator of which is the average value of all the taxpayer's real and tangible personal property owned or rented and used during the tax period.

11. Property owned by the taxpayer is valued at its original cost. Property rented by the taxpayer is valued at eight times the net annual rental rate. Net annual rental rate is the annual rental rate paid by the taxpayer less any annual rental rate received by the taxpayer from subrentals.

12. The average value of property shall be determined by averaging the values at the beginning and ending of the tax period but the tax administrator may require the averaging of monthly values during the tax period if reasonably required to reflect properly the average value of the taxpayer's property.

13. The payroll factor is a fraction, the numerator of which is the total amount paid in this state during the tax period by the taxpayer for compensation and the denominator of which is the total compensation paid everywhere during the tax period.

14. Compensation is paid in this state if:

(1) the individual's service is performed entirely within the state;

(2) the individual's service is performed both within and without the state, but the service performed without the state is incidental to the individual's service within the state;

or

(3) some of the service is performed in the state; and

(a) the base of operations or, if there is no base of operations, the place from which the service is directed or controlled is in the state; or

(b) the base of operations or the place from which the service is directed or controlled is not in any state in which some part of the service is performed, but the individual's residence is in this state.

15. The sales factor is a fraction, the numerator of which is the total sales of the taxpayer in this state during the tax period, and the denominator of which is the total sales of the taxpayer everywhere during the tax period.

16. Sales of tangible personal property are in this state if:

(1) the property is delivered or shipped to a purchaser, other than the United States government, within this state regardless of the f.o.b. point or other conditions of the sale; or

(2) the property is shipped from an office, store, warehouse, factory, or other place of storage in this state; and

(a) the purchaser is the United States government; or

(b) the taxpayer is not taxable in the state of the purchaser.

17. Sales, other than sales of tangible personal property, are in this state if:

(1) the income-producing activity is performed in this state; or

(2) the income-producing activity is performed both in and outside this state and a greater proportion of the income-producing activity is performed in this state than in any other state, based on costs of performance.

18. If the allocation and apportionment provisions of this article do not fairly

represent the extent of the taxpayer's business activity in this state, the taxpayer may petition for or the tax administrator may require, in respect to all or any part of the taxpayer's business activity, if reasonable:

- (1) separate accounting;
- (2) the exclusion of any one or more of the factors;
- (3) the inclusion of one or more additional factors which will fairly represent the taxpayer's business activity in this state; or
- (4) the employment of any other method to effectuate an equitable allocation and apportionment of the taxpayer's income.

#### Article V

1. Each purchaser liable for a use tax on tangible personal property shall be entitled to full credit for the combined amount or amounts of legally imposed sales or use taxes paid by him with respect to the same property to another state and any subdivision thereof. The credit shall be applied first against the amount of any use tax due the state, and any unused portion of the credit shall then be applied against the amount of any use tax due a subdivision.

2. Whenever a vendor receives and accepts in good faith from a purchaser a resale or other exemption certificate or other written evidence of exemption authorized by the appropriate state or subdivision taxing authority, the vendor shall be relieved of liability for a sales or use tax with respect to the transaction.

#### Article VI

1. (a) The multistate tax commission is hereby established. It shall be composed of one "member" from each party state who shall be the head of the state agency charged with the administration of the types of taxes to which this compact applies. If there is more than one such agency the state shall provide by law for the selection of the commission member from the heads of the relevant agencies. State law may provide that a member of the commission be represented by an alternate but only if there is on file with the commission written notification of the designation and identity of the alternate. The attorney general of each party state or his designee, or other counsel if the laws of the party state specifically provide, shall be entitled to attend the meetings of the commission, but shall not vote. Such attorneys general, designees, or other counsel shall receive all notices of meetings required under paragraph 1 (e) of this article.

(b) Each party state shall provide by law for the selection of representatives from its subdivisions affected by this compact to consult with the commission member from that state.

(c) Each member shall be entitled to one vote. The commission shall not act unless a majority of the members are present, and no action shall be binding unless approved by a majority of the total number of members.

(d) The commission shall adopt an official seal to be used as it may provide.

(e) The commission shall hold an annual meeting and such other regular meetings as its bylaws may provide and such special meetings as its executive committee may determine. The commission bylaws shall specify the dates of the annual and any other regular meetings, and shall provide for the giving of notice of annual, regular and special meetings. Notices of special meetings shall include the reasons therefor and an agenda of the items to be considered.

(f) The commission shall elect annually, from among its members, a chairman, a vice chairman and a treasurer. The commission shall appoint an executive director who shall serve at its pleasure, and it shall fix his duties and compensation. The executive director shall be secretary of the commission. The commission shall make provision for the bonding of such of its officers and employees as it may deem appropriate.

(g) Irrespective of the civil service, personnel or other merit system laws of any party state, the executive director shall appoint or discharge such personnel as may be necessary for the performance of the functions of the commission and shall fix their duties and compensation. The commission bylaws shall provide for personnel policies and programs.

(h) The commission may borrow, accept or contract for the services of personnel from any state, the United States, or any other governmental entity.

(i) The commission may accept for any of its purposes and functions any and all donations and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any governmental entity, and may utilize and dispose of the same.

(j) The commission may establish one or more offices for the transacting of its business.

(k) The commission shall adopt bylaws for the conduct of its business. The commission shall publish its bylaws in convenient form, and shall file a copy of the bylaws and any amendments thereto with the appropriate agency or officer in each of the party states.

(l) The commission annually shall make to the governor and legislature of each party state a report covering its activities for the preceding year. Any donation or grant accepted by the commission or services borrowed shall be reported in the annual report of the commission, and shall include the nature, amount and conditions, if any, of the donation, gift, grant or services borrowed and the identity of the donor or lender. The commission may make additional reports as it may deem desirable.

2. (a) To assist in the conduct of its business when the full commission is not meeting, the commission shall have an executive committee of seven members, including the chairman, vice chairman, treasurer and four other members elected annually by the commission. The executive committee, subject to the provisions of this compact and consistent with the policies of the commission, shall function as provided in the bylaws of the commission.

(b) The commission may establish advisory and technical committees, membership on which may include private persons and public officials, in furthering any of its activities. Such committees may consider any matter of concern to the commission, including problems of special interest to any party state and problems dealing with particular types of taxes.

(c) The commission may establish such additional committees as its bylaws may provide.

3. In addition to powers conferred elsewhere in this compact, the commission shall have power to:

(a) Study state and local tax systems and particular types of state and local taxes.

(b) Develop and recommend proposals for an increase in uniformity or compatibility of state and local tax laws with a view toward encouraging the simplification and improvement of state and local tax law and administration.

(c) Compile and publish information as in its judgment would assist the party states in implementation of the compact and taxpayers in complying with state and local tax laws.

(d) Do all things necessary and incidental to the administration of its functions pursuant to this compact.

4. (a) The commission shall submit to the governor or designated officer or officers of each party state a budget of its estimated expenditures for such period as may be required by the laws of that state for presentation to the legislature thereof.

(b) Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amounts to be appropriated by each of the party states. The total amount of appropriations requested under any such budget shall be apportioned among the party states as follows: one-tenth in equal shares; and the remainder in proportion to the amount of revenue collected by each party state and its subdivisions from income taxes, capital stock taxes, gross receipts taxes, sales and use taxes. In determining such amounts, the commission shall employ such available public sources of information as, in its judgment, present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the sources used in obtaining information employed in applying the formula contained in this paragraph.

(c) The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under paragraph 1 (i) of this article; provided that the commission takes specific action setting aside such funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under paragraph 1 (i), the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

(d) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

(e) The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

(f) Nothing contained in this article shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

#### Article VII

1. Whenever any two or more party states, or subdivisions of party states, have uniform or similar provisions of law relating to an income tax, capital stock tax, gross receipts tax, sales or use tax, the commission may adopt uniform regulations for any phase of the administration of such law, including assertion of jurisdiction to tax, or prescribing uniform tax forms. The commission may also act with respect to the provisions of article IV of this compact.

2. Prior to the adoption of any regulation, the commission shall:

(a) As provided in its bylaws, hold at least one public hearing on due notice to all affected party states and subdivisions thereof and to all taxpayers and other persons who have made timely request of the commission for advance notice of its regulation-making proceedings.

(b) Afford all affected party states and subdivisions and interested persons an opportunity to submit relevant written data and views, which shall be considered fully by the commission.

3. The commission shall submit any regulations adopted by it to the appropriate officials of all party states and subdivisions to which they might apply. Each such state and subdivision shall consider any such regulation for adoption in accordance with its own laws and procedures.

#### Article VIII

1. This article shall be in force only in those party states that specifically provide therefor by statute.

2. Any party state or subdivision thereof desiring to make or participate in an audit of any accounts, books, papers, records or other documents may request the commission to perform the audit on its behalf. In responding to the request, the commission shall have access to and may examine, at any reasonable time, such accounts, books, papers, records,

and other documents and any relevant property or stock of merchandise. The commission may enter into agreements with party states or their subdivisions for assistance in performance of the audit. The commission shall make charges, to be paid by the state or local government or governments for which it performs the service, for any audits performed by it in order to reimburse itself for the actual costs incurred in making the audit.

3. The commission may require the attendance of any person within the state where it is conducting an audit or part thereof at a time and place fixed by it within such state for the purpose of giving testimony with respect to any account, book, paper, document, other record, property or stock of merchandise being examined in connection with the audit. If the person is not within the jurisdiction, he may be required to attend for such purpose at any time and place fixed by the commission within the state of which he is a resident; provided that such state has adopted this article.

4. The commission may apply to any court having power to issue compulsory process for orders in aid of its powers and responsibilities pursuant to this article and any and all such courts shall have jurisdiction to issue such orders. Failure of any person to obey any such order shall be punishable as contempt of the issuing court. If the party or subject matter on account of which the commission seeks an order is within the jurisdiction of the court to which application is made, such application may be to a court in the state or subdivision on behalf of which the audit is being made or a court in the state in which the object of the order being sought is situated. The provisions of this paragraph apply only to courts in a state that has adopted this article.

5. The commission may decline to perform any audit requested if it finds that its available personnel or other resources are insufficient for the purpose or that, in the terms requested, the audit is impracticable of satisfactory performance. If the commission, on the basis of its experience, has reason to believe that an audit of a particular taxpayer, either at a particular time or on a particular schedule, would be of interest to a number of party states or their subdivisions, it may offer to make the audit or audits, the offer to be contingent on sufficient participation therein as determined by the commission.

6. Information obtained by any audit pursuant to this article shall be confidential and available only for tax purposes to party states, their subdivisions or the United States. Availability of information shall be in accordance with the laws of the states or subdivisions on whose account the commission performs the audit, and only through the appropriate agencies or officers of such states or subdivisions. Nothing in this article shall be construed to require any taxpayer to keep records for any period not otherwise required by law.

7. Other arrangements made or authorized pursuant to law for cooperative audit by or on behalf of the party states or any of their subdivisions are not superseded or invalidated by this article.

8. In no event shall the commission make any charge against a taxpayer for an audit.
9. As used in this article, "tax" in addition to the meaning ascribed to it in article II, means any tax or license fee imposed in whole or in part for revenue purposes.

#### Article IX

1. Whenever the commission finds a need for settling disputes concerning apportionments and allocations by arbitration, it may adopt a regulation placing this article in effect, notwithstanding the provisions of article VII.

2. The commission shall select and maintain an arbitration panel composed of officers and employees of state and local governments and private persons who shall be knowledgeable and experienced in matters of tax law and administration.

3. Whenever a taxpayer who has elected to employ article IV, or whenever the laws of the party state or subdivision thereof are substantially identical with the relevant provisions of article IV, the taxpayer, by written notice to the commission and to each party state or subdivision thereof that would be affected, may secure arbitration of an apportionment or allocation, if he is dissatisfied with the final administrative determination of the tax agency of the state or subdivision with respect thereto on the ground that it would subject him to double or multiple taxation by two or more party states or subdivisions thereof. Each party state and subdivision thereof hereby consents to the arbitration as provided herein, and agrees to be bound thereby.

4. The arbitration board shall be composed of one person selected by the taxpayer, one by the agency or agencies involved, and one member of the commission's arbitration panel. If the agencies involved are unable to agree on the person to be selected by them, such person shall be selected by lot from the total membership of the arbitration panel. The two persons selected for the board in the manner provided by the foregoing provisions of this paragraph shall jointly select the third member of the board. If they are unable to agree on the selection, the third member shall be selected by lot from among the total membership of the arbitration panel. No member of a board selected by lot shall be qualified to serve if he is an officer or employee or otherwise affiliated with any party to the arbitration proceeding. Residence within the jurisdiction of a party to the arbitration proceeding shall not constitute affiliation within the meaning of this paragraph.

5. The board may sit in any state or subdivision party to the proceeding, in the state of the taxpayer's incorporation, residence or domicile, in any state where the taxpayer does business, or in any place that it finds most appropriate for gaining access to evidence relevant to the matter before it.

6. The board shall give due notice of the times and places of its hearings. The parties shall be entitled to be heard, to present evidence, and to examine and cross-examine witnesses. The board shall act by majority vote.

7. The board shall have power to administer oaths, take testimony, subpoena and

require the attendance of witnesses and the production of accounts, books, papers, records, and other documents, and issue commissions to take testimony. Subpoenas may be signed by any member of the board. In case of failure to obey a subpoena, and upon application by the board, any judge of a court of competent jurisdiction of the state in which the board is sitting or in which the person to whom the subpoena is directed may be found may make an order requiring compliance with the subpoena, and the court may punish failure to obey the order as a contempt. The provisions of this paragraph apply only in states that have adopted this article.

8. Unless the parties otherwise agree the expenses and other costs of the arbitration shall be assessed and allocated among the parties by the board in such manner as it may determine. The commission shall fix a schedule of compensation for members of arbitration boards and of other allowable expenses and costs. No officer or employee of a state or local government who serves as a member of a board shall be entitled to compensation therefor unless he is required on account of his service to forego the regular compensation attaching to his public employment, but any such board member shall be entitled to expenses.

9. The board shall determine the disputed apportionment or allocation and any matters necessary thereto. The determinations of the board shall be final for purposes of making the apportionment or allocation, but for no other purpose.

10. The board shall file with the commission and with each tax agency represented in the proceeding: the determination of the board; the board's written statement of its reasons therefor; the record of the board's proceedings; and any other documents required by the arbitration rules of the commission to be filed.

11. The commission shall publish the determinations of boards together with the statements of the reasons therefor.

12. The commission shall adopt and publish rules of procedure and practice and shall file a copy of such rules and of any amendment thereto with the appropriate agency or officer in each of the party states.

13. Nothing contained herein shall prevent at any time a written compromise of any matter or matters in dispute, if otherwise lawful, by the parties to the arbitration proceeding.

#### Article X

1. This compact shall enter into force when enacted into law by any seven states. Thereafter, this compact shall become effective as to any other state upon its enactment thereof. The commission shall arrange for notification of all party states whenever there is a new enactment of the compact.

2. Any party state may withdraw from this compact by enacting a statute repealing the same. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

3. No proceeding commenced before an arbitration board prior to the withdrawal of

a state and to which the withdrawing state or any subdivision thereof is a party shall be discontinued or terminated by the withdrawal, nor shall the board thereby lose jurisdiction over any of the parties to the proceeding necessary to make a binding determination therein.

#### Article XI

Nothing in this compact shall be construed to:

(a) Affect the power of any state or subdivision thereof to fix rates of taxation, except that a party state shall be obligated to implement article III 2 of this compact.

(b) Apply to any tax or fixed fee imposed for the registration of a motor vehicle or any tax on motor fuel, other than a sales tax; provided that the definition of "tax" in article VIII 9 may apply for the purposes of that article and the commission's powers of study and recommendation pursuant to article VI 3 may apply.

(c) Withdraw or limit the jurisdiction of any state or local court or administrative officer or body with respect to any person, corporation or other entity or subject matter, except to the extent that such jurisdiction is expressly conferred by or pursuant to this compact upon another agency or body.

(d) Supersede or limit the jurisdiction of any court of the United States.

#### Article XII

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

137.115. 1. All other laws to the contrary notwithstanding, the assessor or the assessor's deputies in all counties of this state including the city of St. Louis shall annually make a list of all real and tangible personal property taxable in the assessor's city, county, town or district. Except as otherwise provided in subsection 3 of this section, the assessor shall annually assess all personal property at thirty-three and one-third percent of its true value in money as of January first of each calendar year. The assessor shall annually assess all real property, including any new construction and improvements to real property, and possessory interests in real property at the percent of its true value in money set in subsection 5 of this section. The assessor shall annually assess all real property in the following manner: new assessed values shall be determined as of January first of each odd-numbered year and shall be entered in the assessor's books; those same assessed values shall apply in the following even-numbered year, except for new construction and property

improvements which shall be valued as though they had been completed as of January first of the preceding odd-numbered year. The assessor may call at the office, place of doing business, or residence of each person required by this chapter to list property, and require the person to make a correct statement of all taxable tangible personal property owned by the person or under his or her care, charge or management, taxable in the county. On or before January first of each even-numbered year, the assessor shall prepare and submit a two-year assessment maintenance plan to the county governing body and the state tax commission for their respective approval or modification. The county governing body shall approve and forward such plan or its alternative to the plan to the state tax commission by February first. If the county governing body fails to forward the plan or its alternative to the plan to the state tax commission by February first, the assessor's plan shall be considered approved by the county governing body. If the state tax commission fails to approve a plan and if the state tax commission and the assessor and the governing body of the county involved are unable to resolve the differences, in order to receive state cost-share funds outlined in section 137.750, the county or the assessor shall petition the administrative hearing commission, by May first, to decide all matters in dispute regarding the assessment maintenance plan. Upon agreement of the parties, the matter may be stayed while the parties proceed with mediation or arbitration upon terms agreed to by the parties. The final decision of the administrative hearing commission shall be subject to judicial review in the circuit court of the county involved. In the event a valuation of subclass (1) real property within any county with a charter form of government, or within a city not within a county, is made by a computer, computer-assisted method or a computer program, the burden of proof, supported by clear, convincing and cogent evidence to sustain such valuation, shall be on the assessor at any hearing or appeal. In any such county, unless the assessor proves otherwise, there shall be a presumption that the assessment was made by a computer, computer-assisted method or a computer program. Such evidence shall include, but shall not be limited to, the following:

- (1) The findings of the assessor based on an appraisal of the property by generally accepted appraisal techniques; and

- (2) The purchase prices from sales of at least three comparable properties and the address or location thereof. As used in this paragraph, the word "comparable" means that:

- (a) Such sale was closed at a date relevant to the property valuation; and

- (b) Such properties are not more than one mile from the site of the disputed property, except where no similar properties exist within one mile of the disputed property, the nearest comparable property shall be used. Such property shall be within five hundred square feet in size of the disputed property, and resemble the disputed property in age, floor plan, number of rooms, and other relevant characteristics.

2. Assessors in each county of this state and the city of St. Louis may send personal

property assessment forms through the mail.

3. The following items of personal property shall each constitute separate subclasses of tangible personal property and shall be assessed and valued for the purposes of taxation at the following percents of their true value in money:

(1) Grain and other agricultural crops in an unmanufactured condition, one-half of one percent;

(2) Livestock, twelve percent;

(3) Farm machinery, twelve percent;

(4) Motor vehicles which are eligible for registration as and are registered as historic motor vehicles pursuant to section 301.131, RSMo, and aircraft which are at least twenty-five years old and which are used solely for noncommercial purposes and are operated less than fifty hours per year or aircraft that are home built from a kit, five percent;

(5) Poultry, twelve percent; [and]

(6) Tools and equipment used for pollution control and tools and equipment used in retooling for the purpose of introducing new product lines or used for making improvements to existing products by any company which is located in a state enterprise zone and which is identified by any standard industrial classification number cited in subdivision (6) of section 135.200, RSMo, twenty-five percent; and

**(7) Motor vehicles, as defined in section 301.010, RSMo, in the taxable year beginning January 1, 2005, twenty-six and two-thirds percent; in the taxable year beginning January 1, 2006, twenty percent; in the taxable year beginning January 1, 2007, thirteen and one-third percent; in the taxable year beginning January 1, 2008, six and two-thirds percent; in the taxable year beginning January 1, 2009, and each year thereafter, one-half of one percent. In the years starting 2005 and ending 2009, in the event that the stepped-down percentage of true value in money of motor vehicles pursuant to the provisions of this subdivision would cause a reduction of revenue to a political subdivision below the level that the political subdivision is entitled to receive pursuant to section 137.073, such political subdivision shall revise its rates for the three subclasses of real property, on a proportional basis based upon the relative assessed value of the subclasses of real property so as not to suffer any loss of revenue due to the operation of this subdivision.**

4. The person listing the property shall enter a true and correct statement of the property, in a printed blank prepared for that purpose. The statement, after being filled out, shall be signed and either affirmed or sworn to as provided in section 137.155. The list shall then be delivered to the assessor.

5. All subclasses of real property, as such subclasses are established in section 4(b) of article X of the Missouri Constitution and defined in section 137.016, shall be assessed at

the following percentages of true value:

- (1) For real property in subclass (1), nineteen percent;
- (2) For real property in subclass (2), twelve percent; and
- (3) For real property in subclass (3), thirty-two percent.

6. Manufactured homes, as defined in section 700.010, RSMo, which are actually used as dwelling units shall be assessed at the same percentage of true value as residential real property for the purpose of taxation. The percentage of assessment of true value for such manufactured homes shall be the same as for residential real property. If the county collector cannot identify or find the manufactured home when attempting to attach the manufactured home for payment of taxes owed by the manufactured home owner, the county collector may request the county commission to have the manufactured home removed from the tax books, and such request shall be granted within thirty days after the request is made; however, the removal from the tax books does not remove the tax lien on the manufactured home if it is later identified or found. A manufactured home located in a manufactured home rental park, rental community or on real estate not owned by the manufactured home owner shall be considered personal property. A manufactured home located on real estate owned by the manufactured home owner may be considered real property.

7. Each manufactured home assessed shall be considered a parcel for the purpose of reimbursement pursuant to section 137.750, unless the manufactured home has been converted to real property in compliance with section 700.111, RSMo, and assessed as a realty improvement to the existing real estate parcel.

8. Any amount of tax due and owing based on the assessment of a manufactured home shall be included on the personal property tax statement of the manufactured home owner unless the manufactured home has been converted to real property in compliance with section 700.111, RSMo, in which case the amount of tax due and owing on the assessment of the manufactured home as a realty improvement to the existing real estate parcel shall be included on the real property tax statement of the real estate owner.

9. The assessor of each county and each city not within a county shall use the trade-in value published in the October issue of the National Automobile Dealers' Association Official Used Car Guide, or its successor publication, as the recommended guide of information for determining the true value of motor vehicles described in such publication. In the absence of a listing for a particular motor vehicle in such publication, the assessor shall use such information or publications which in the assessor's judgment will fairly estimate the true value in money of the motor vehicle.

10. Before the assessor may increase the assessed valuation of any parcel of subclass (1) real property by more than fifteen percent since the last assessment, excluding increases due to new construction or improvements, the assessor shall conduct a physical inspection of such property.

11. If a physical inspection is required, pursuant to subsection 10 of this section, the assessor shall notify the property owner of that fact in writing and shall provide the owner clear written notice of the owner's rights relating to the physical inspection. If a physical inspection is required, the property owner may request that an interior inspection be performed during the physical inspection. The owner shall have no less than thirty days to notify the assessor of a request for an interior physical inspection.

12. A physical inspection, as required by subsection 10 of this section, shall include, but not be limited to, an on-site personal observation and review of all exterior portions of the land and any buildings and improvements to which the inspector has or may reasonably and lawfully gain external access, and shall include an observation and review of the interior of any buildings or improvements on the property upon the timely request of the owner pursuant to subsection 11 of this section. Mere observation of the property via a "drive-by inspection" or the like shall not be considered sufficient to constitute a physical inspection as required by this section.

13. The provisions of subsections 11 and 12 of this section shall only apply in any county with a charter form of government with more than one million inhabitants.

14. A county or city collector may accept credit cards as proper form of payment of outstanding property tax due. No county or city collector may charge surcharge for payment by credit card which exceeds the fee or surcharge charged by the credit card bank for its service.

15. The provisions of this section and sections 137.073, 138.060 and 138.100, RSMo, shall become effective January 1, 2003, for any taxing jurisdiction which has at least seventy-five percent of the land area of such jurisdiction within a county with a charter form of government with greater than one million inhabitants, and the provisions of this section and sections 137.073, 138.060 and 138.100, RSMo, shall become effective January 1, 2005, for all taxing jurisdictions in this state. Any county in this state may, by an affirmative vote of the governing body of such county, opt into the provisions of this act prior to January 1, 2005.

**16. (1) Depreciable tangible personal property, defined as tangible personal property that is used in a trade or business or used for the production of income and that has a determinable life of longer than one year, shall be a separate subclass of tangible personal property and assessed at thirty-three and one-third percent of its true value in money. Depreciable tangible personal property, in compliance with article X, section 4(b), and under the authority of article X, section 3, of the constitution of Missouri, its "value" for tax purposes shall be its value as determined by the method set out in this subsection. Depreciable tangible personal property shall not include livestock, farm machinery, property subject to the motor vehicle registration provisions of chapter 301, RSMo, or property**

assessed by the state tax commission pursuant to chapters 151, 153, 155, or section 137.022, and sections 137.1000 to 137.1030, RSMo. The "true value in money", as such term is applied to such tangible personal property owned by the taxpayer, or under the taxpayer's care, charge, or management, and taxable in this state, shall mean the installed fair market value. Installed fair market value is the estimated amount, expressed in terms of money, that may reasonably be expected for an installed property in an exchange between a willing buyer and a willing seller, with equity to both, neither under any compulsion to buy or sell, and both fully aware of all relevant facts, including installation, as of the date of assessment. This amount includes all normal direct and indirect costs, including but not limited to, surcharge price, sales or use taxes, installation, and other assemblage costs necessary to make the property fully operational and ready for use.

(2) To implement the provisions of this subsection, the state tax commission shall establish tables to provide guidance and establish values for various types of tangible personal property addressed by this subsection as well as tables for depreciation of such property. The tables shall establish base and depreciated values for the various types of tangible personal property, as determined by the state tax commission, pursuant to the provisions of subdivision (1) of this subsection. The state tax commission shall review the regulations for accuracy and reliability periodically, but at least every two years.

(3) The assessor shall start each assessment of such personal property with the tables established by the state tax commission pursuant to subdivision (2) of this subsection. The assessor shall be permitted to make adjustments to any assessment to reflect the installed fair market value to reasonably reflect any obsolescence by virtue of economic, functional, or technological changes.

(4) There shall be a rebuttable presumption of correctness with regard to the state tax commission's tables and any adjustments for obsolescence by an assessor. The tables established by the state tax commission shall be so enacted by rule. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after January 1, 2005, shall be invalid and void.

143.091. 1. Any term used in sections 143.011 to 143.996 shall have the same meaning as when used in a comparable context in the laws of the United States relating to federal income taxes, unless a different meaning is clearly required by the provisions of sections 143.011 to 143.996. Any reference in sections 143.011 to 143.996 to the laws of the United States shall mean the provisions of the Internal Revenue Code of 1986, and amendments thereto **enacted on or before January 1, 2004**, and other provisions of the laws of the United States relating to federal income taxes, as the same may be or become effective[, at any time or from time to time,] **on or before January 1, 2004**, for the taxable year.

**2. Within sixty days after an amendment of the Internal Revenue Code of 1986, is enacted, the director of revenue shall prepare and submit to the governor, the speaker of the house of representatives, and the president pro tempore of the senate a report which outlines:**

- (1) The changes of the Internal Revenue Code of 1986;**
- (2) The impact of those changes on state revenues; and**
- (3) The impact of those changes on the various classes and types of taxpayers.**

143.121. 1. The Missouri adjusted gross income of a resident individual shall be his federal adjusted gross income subject to the modifications in this section.

2. There shall be added to his federal adjusted gross income:

(a) The amount of any federal income tax refund received for a prior year which resulted in a Missouri income tax benefit;

(b) Interest on certain governmental obligations excluded from federal gross income by Section 103 of the Internal Revenue Code. The previous sentence shall not apply to interest on obligations of the state of Missouri or any of its political subdivisions or authorities and shall not apply to the interest described in subdivision (a) of subsection 3 of this section. The amount added under this paragraph shall be reduced by the amounts applicable to such interest that would have been deductible in computing the taxable income of the taxpayer except only for the application of Section 265 of the Internal Revenue Code. The reduction shall only be made if it is at least five hundred dollars;

(c) The amount of any deduction that is included in the computation of federal taxable income under Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002 to the extent the amount deducted relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent the amount deducted exceeds the amount that would have been deductible under Section 168 of the Internal Revenue Code of 1986 as in effect on January 1, 2002; [and]

(d) The amount of any deduction that is included in the computation of federal taxable income for net operating loss allowed by Section 172 of the Internal Revenue Code

of 1986, as amended, except for any deduction for net operating loss the taxpayer claims in the tax year in which the net operating loss occurred or carries forward for a period not to exceed twenty years and carries backward for not more than two years; and

**(e) For nonresident individuals, in all taxable years ending on or after December 31, 2004, the amount of any property taxes paid to another state or a political subdivision of another state for which a deduction was allowed on such nonresident's federal return in the taxable year.**

3. There shall be subtracted from his federal adjusted gross income the following amounts to the extent included in federal adjusted gross income:

(a) Interest or dividends on obligations of the United States and its territories and possessions or of any authority, commission or instrumentality of the United States to the extent exempt from Missouri income taxes under the laws of the United States. The amount subtracted under this paragraph shall be reduced by any interest on indebtedness incurred to carry the described obligations or securities and by any expenses incurred in the production of interest or dividend income described in this paragraph. The reduction in the previous sentence shall only apply to the extent that such expenses including amortizable bond premiums are deducted in determining his federal adjusted gross income or included in his Missouri itemized deduction. The reduction shall only be made if the expenses total at least five hundred dollars;

(b) The portion of any gain, from the sale or other disposition of property having a higher adjusted basis to the taxpayer for Missouri income tax purposes than for federal income tax purposes on December 31, 1972, that does not exceed such difference in basis. If a gain is considered a long-term capital gain for federal income tax purposes, the modification shall be limited to one-half of such portion of the gain;

(c) The amount necessary to prevent the taxation under sections 143.011 to 143.996 of any annuity or other amount of income or gain which was properly included in income or gain and was taxed under the laws of Missouri for a taxable year prior to January 1, 1973, to the taxpayer, or to a decedent by reason of whose death the taxpayer acquired the right to receive the income or gain, or to a trust or estate from which the taxpayer received the income or gain;

(d) Accumulation distributions received by a taxpayer as a beneficiary of a trust to the extent that the same are included in federal adjusted gross income;

(e) The amount of any state income tax refund for a prior year which was included in the federal adjusted gross income;

(f) The portion of capital gain specified in subsection 3 of section 144.747, RSMo, that would otherwise be included in federal adjusted gross income; and

(g) The amount that would have been deducted in the computation of federal taxable income under Section 168 of the Internal Revenue Code as in effect on January 1, 2002, to

the extent that amount relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent that amount exceeds the amount actually deducted under Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002.

4. There shall be added to or subtracted from his federal adjusted gross income the taxpayer's share of the Missouri fiduciary adjustment provided in section 143.351.

5. There shall be added to or subtracted from his federal adjusted gross income the modifications provided in section 143.411.

143.431. 1. The Missouri taxable income of a corporation taxable under sections 143.011 to 143.996 shall be so much of its federal taxable income for the taxable year, with the modifications specified in subsections 2 and 3 of this section, as is derived from sources within Missouri as provided in section 143.451. The tax of a corporation shall be computed on its Missouri taxable income at the rates provided in section 143.071.

2. There shall be added to or subtracted from federal taxable income, the modifications to adjusted gross income provided in section 143.121 **with the exception of subdivision (e) of subsection 2 of section 143.121**, and the applicable modifications to itemized deductions provided in section 143.141. There shall be subtracted the federal income tax deduction provided in section 143.171. There shall be subtracted, to the extent included in federal taxable income, corporate dividends from sources within Missouri.

3. (1) If an affiliated group of corporations files a consolidated income tax return for the taxable year for federal income tax purposes and fifty percent or more of its income is derived from sources within this state as determined in accordance with section 143.451, then it may elect to file a Missouri consolidated income tax return. The federal consolidated taxable income of the electing affiliated group for the taxable year shall be its federal taxable income.

(2) So long as a federal consolidated income tax return is filed, an election made by an affiliated group of corporations to file a Missouri consolidated income tax return may be withdrawn or revoked only upon substantial change in the law or regulations adversely changing tax liability under this chapter; or, with permission of the director of revenue upon the showing of good cause for such action. After such a withdrawal or revocation with respect to an affiliated group, it may not file a Missouri consolidated income tax return for five years thereafter, except with the approval of the director of revenue, and subject to such terms and conditions as he may prescribe.

(3) No corporation which is part of an affiliated group of corporations filing a Missouri consolidated income tax return shall be required to file a separate Missouri corporate income tax return for the taxable year.

(4) For each taxable year an affiliated group of corporations filing a federal consolidated income tax return does not file a Missouri consolidated income tax return, for

purposes of computing the Missouri income tax, the federal taxable income of each member of the affiliated group shall be determined as if a separate federal income tax return had been filed by each such member.

(5) The director of revenue may prescribe such regulations not inconsistent with the provisions of this chapter as he may deem necessary in order that the tax liability of any affiliated group of corporations making a Missouri consolidated income tax return, and of each corporation in the group, before, during, and after the period of affiliation, may be returned, determined, computed, assessed, collected, and adjusted, in such manner as clearly to reflect the Missouri taxable income derived from sources within this state and in order to prevent avoidance of such tax liability.

**Section 1. 1. Notwithstanding any provision of chapter 143, RSMo, to the contrary, for all taxable years beginning on or after January 1, 2005, the Missouri income tax liability of all residents and nonresidents shall be governed by the provisions of sections 1 to 4 of this act.**

**2. There shall be imposed a tax on the Missouri taxable income of every resident and nonresident in an amount equal to four and one-half percent.**

**Section 2. 1. The Missouri taxable income of a resident shall be the resident's federal adjusted gross income less the Missouri deduction for personal exemptions as provided in subsection 2 of this section, and plus or minus the adjustments provided in subsection 3 of this section. No other deductions shall apply to reduce the tax liability imposed against any resident pursuant to this section.**

**2. A resident shall be allowed a deduction of ten thousand dollars for the resident and ten thousand dollars for such resident's spouse; except that:**

**(1) A resident filing as a head of household shall be allowed a deduction of fifteen thousand dollars for the resident;**

**(2) A resident filing as a surviving spouse shall, in the taxable year in which the death of the resident's spouse occurred, be allowed a deduction of twenty thousand dollars; and**

**(3) A resident filing as a dependent shall be allowed a deduction of fifteen hundred dollars.**

**3. The following adjustments shall be made to a resident's federal adjusted gross income:**

**(1) There shall be added to federal adjusted gross income: interest on certain governmental obligations excluded from federal gross income by section 103 of the Internal Revenue Code. The previous sentence shall not apply to interest on obligations of the state of Missouri or any of its political subdivisions or authorities and shall not apply to the interest described in subdivision (2) of**

this subsection. The amount added pursuant to this paragraph shall be reduced by the amounts applicable to such interest that would have been deductible in computing the taxable income of the taxpayer except only for the application of section 265 of the Internal Revenue Code. The reduction shall only be made if it is at least five hundred dollars;

(2) There shall be subtracted from federal adjusted gross income the following amounts to the extent included in federal adjusted gross income: interest or dividends on obligations of the United States and its territories and possessions or of any authority, commission, or instrumentality of the United States to the extent exempt from Missouri income taxes pursuant to the laws of the United States. The amount subtracted pursuant to this subdivision shall be reduced by any interest on indebtedness incurred to carry the described obligations or securities and by any expenses incurred in the production of interest or dividend income described in this subdivision. The reduction in the previous sentence shall only apply to the extent that such expenses, including amortizable bond premiums, are deducted in determining its federal adjusted gross income. The reduction shall only be made if the expenses total at least five hundred dollars;

(3) There shall be subtracted from federal adjusted gross income: the amount of any benefits received pursuant to the Railroad Retirement Tax Act, Sections 3201 and 3211 of the Internal Revenue Code, as amended, to the extent such benefits were not deducted in calculating the taxpayer's federal adjusted gross income.

Section 3. 1. In the case of a nonresident, the tax shall only be imposed on income of the nonresident which is derived from sources in this state. The Missouri taxable income shall be that part of the nonresident individual's federal taxable income derived from sources within Missouri. It shall be the sum of:

(1) The net amount of items of income, gain, loss, and deduction entering into the nonresident's federal taxable income which are derived from or connected with sources in this state including the following:

(a) The nonresident's distributive share of partnership income and deductions determined pursuant to section 4 of this act;

(b) The nonresident's share of estate or trust income and deductions determined pursuant to section 143.391, RSMo; and

(c) The nonresident's pro rata share of S corporation income and deductions pursuant to subsection 3 of section 143.471, RSMo;

(2) Adjustments for tax-free bonds and railroad retirement benefits as provided in subsection 3 of section 2 of this act.

2. Items of income, gain, loss, and deduction derived from or connected with sources within this state are those items attributable to the ownership or disposition of any interest in real or tangible personal property in this state, and a business, trade, profession, or occupation carried on in this state.

3. Income from intangible personal property, including annuities, dividends, interest, and gains from the disposition of intangible personal property, shall constitute income derived from sources within this state only to the extent that such income is from property employed in a business, trade, profession, or occupation carried on in this state.

4. There shall be no deductions from federal taxable income for capital losses, net long-term capital gains, and net operation losses.

5. If a business, trade, profession, or occupation is carried on partly within and partly without this state, the items of income and deduction derived from or connected with sources within this state shall be determined by apportionment and allocation pursuant to regulations to be prescribed by the director.

6. Compensation paid by the United States for service in the armed forces of the United States performed by a nonresident shall not constitute income derived from sources within this state.

7. Except as provided in this section, no other deductions shall apply to reduce the tax liability imposed against any nonresident pursuant to this section.

Section 4. 1. In determining the taxable income of a nonresident partner of any partnership, there shall be included only that part derived from or connected with sources in this state of the partner's distributive share of items of partnership income, gain, loss, and deduction entering into the partner's federal adjusted gross income, as such part is determined pursuant to regulations prescribed by the director of revenue in accordance with the general rules in section 143.181, RSMo.

2. In determining the source of a nonresident partner's taxable income, no effect shall be given to a provision in the partnership agreement which:

(1) Characterizes payments to the partner as being for services or for the use of capital, or allocated to the partner, as income or gain from sources outside this state, a greater proportion of the partner's distributive share of partnership income or gain than the ratio of partnership income or gain from sources outside this state to partnership income or gain from all sources, except as authorized in subsection 4 of this section; or

(2) Allocates to the partner a greater proportion of a partnership item of loss or deduction connected with sources in this state than the partner's proportionate share, for federal income tax purposes, of partnership loss or deduction generally, except as authorized in subsection 5 of this section.

3. An item of partnership income, gain, loss, or deduction shall be made in accordance with the partner's distributive share for federal income tax purposes, but limited to the portion of such item derived from or connected with sources in this state.

4. The director of revenue may, on application, authorize the use of such other methods of determining a nonresident partner's portion of partnership items derived from or connected with sources in this state, and the modifications related thereto, as may be appropriate and equitable, on such terms and conditions as the director may require.

5. A nonresident partner's distributive share of items of income, gain, loss, or deduction shall be determined pursuant to subsection 1 of section 143.411, RSMo. The character of partnership items for a nonresident partner shall be determined pursuant to subsection 2 of section 143.411, RSMo. The effect of a special provision in a partnership agreement, other than a provision referred to in subsection 2 of this section, having as a principal purpose the avoidance of tax pursuant to sections 143.011 to 143.996, RSMo, shall be determined pursuant to subsection 3 of section 143.411, RSMo.

Section B. Section A of this act shall become effective January 1, 2005.
